

RANGE OF PRICES FOR RESIDENTIAL PLUMBING (DRAINAGE REPAIRS)

Prices include both labor and material.

Item	Amount Range
1) Sewer rodding (from an existing cleanout)	\$175 to \$450
2) Installing a sewer cleanout (excavation) in lawn area	\$1,800 to \$4,200
3) Sewer repairs (excavation) on private property	\$100 to \$200 / foot
4) Sewer repairs (excavation) in right-of-way (ROW)	\$150 to \$350 / foot
5) Sump pump replacement	\$500 to \$1,500
6) Sewer televising (from an existing cleanout)	\$100 to \$300
7) Residential flood control (install valves/pump in manhole next to ROW)	\$5,000 to \$7,000
8) Overhead sewer (ejector pump and rerouting piping in basement)	\$7,500 to \$11,000

Periodic use of copper sulfate in the drain overnight does inhibit root growth.

Before you contract to have your sewer replaced, have it televised to see the extent of damage. Please have your sewer contractor burn a DVD of this televising so the City can review it.

The above prices do not include the City's Flood Rebate Program.
